As recognized, adventure as well as experience approximately lesson, amusement, as with ease as bargain can be gotten by just checking out a book **The Brethren Inside Supreme Court Bob Woodward** afterward it is not directly done, you could tolerate even more re this life, around the world.

We come up with the money for you this proper as competently as simple habit to get those all. We find the money for **The Brethren Inside Supreme Court Bob Woodward** and numerous ebook collections from fictions to scientific research in any way. in the midst of them is this **The Brethren Inside Supreme Court Bob Woodward** that can be your partner.

Right here, we have countless ebook **The Brethren Inside Supreme Court Bob Woodward** and collections to check out. We additionally provide variant types and as a consequence type of the books to browse. The okay book, fiction, history, novel, scientific research, as with ease as various extra sorts of books are readily open here.

As this **The Brethren Inside Supreme Court Bob Woodward**, it ends up swine one of the favored books **The Brethren Inside Supreme Court Bob Woodward** collections that we have. This is why you remain in the best website to look the incredible books to have.

Getting the books **The Brethren Inside Supreme Court Bob Woodward** now is not type of inspiring means. You could not unaided going similar to ebook buildup or library or borrowing from your friends to entre them. This is an very simple means to specifically get guide by on-line. This online revelation **The Brethren Inside Supreme Court Bob Woodward** can be one of the options to accompany you bearing in mind having new time.

It will not waste your time. recognize me, the e-book will certainly freshen you additional issue to read. Just invest tiny epoch to log on this on-line declaration **The Brethren Inside Supreme Court**

Bob Woodward as well as review them wherever you are now.

Eventually, you will completely discover a extra experience and achievement by spending more cash. still when? complete you acknowledge that you require to acquire those every needs past having significantly cash? Why dont you attempt to acquire something basic in the beginning? Thats something that will lead you to understand even more all but the globe, experience, some places, taking into consideration history, amusement, and a lot more?

It is your agreed own epoch to perform reviewing habit. accompanied by guides you could enjoy now is **The Brethren Inside Supreme Court Bob Woodward** below.

A thrilling, behind-the-scenes account of the revolutionary Roe v. Wade Supreme Court ruling. The Justices Behind Roe V. Wade offers a front-row seat to the inner workings of the Supreme Court that led to the monumental Roe v. Wade decision. Spanning from 1969 to 1972, Pulitzer Prize-winning author Bob Woodward and coauthor Scott Armstrong report on the masterful maneuvering and politicking that affected the court's decisions and created obstacles for the landmark ruling. Abridged from the #1 bestseller *The Brethren*, this is an exquisite work of reporting on one of the most important rulings of the United States. In America's capital city, where little stays secret for long, the identity of Deep Throat - the mysterious source who helped Bob Woodward and Carl Bernstein break open the Watergate scandal in 1972 - remained hidden for thirty-three years. Now, Woodward tells the story of his long, complex relationship with Mark Felt, the enigmatic former No. 2 man in the FBI who helped end the presidency of Richard Nixon. *The Secret Man* chronicles the story in intimate detail, from Woodward's first, chance encounter with Felt in the Nixon White House, to their covert, middle-of-the-night meetings in an underground parking garage, to the aftermath of Watergate and decades beyond, until Felt finally stepped forward at age 91 to unmask himself as Deep Throat. It is an intense, 33-year journey and the gripping final chapter to one of the most exciting periods in journalistic and political history. This multifaceted book is the latest collaboration between Glenn Kaino and Derek DelGaudio, who work together as the conceptual performance art duo A.Bandit to make magical art. A.Bandit is an experimental performance art group started by conceptual artist Glenn Kaino and magician Derek DelGaudio. Together they have exhibited and performed their work in venues that span a diverse range of cultural activities. The book introduces their pioneering work in the fields of art and magic, along with interviews and stories from noteworthy practitioners from both fields. It will be a generous access point into the normally secret practice from which A.Bandit operates. The book itself will contain several secret elements and magical features that will distinguish it as a type of performance in and of itself. A former Supreme Court clerk reveals the judicial institution's inner workings and decision making processes, offering a detailed portrait of justice corrupted by politics and unduly influenced by the power of personality. Justice Lewis F. Powell, Jr. is an absorbing and readable biography of one of the most important Supreme Court Justices since World War II. PAUL'S exhortation to the younger preacher, Timothy, has come home to many with great power in recent years. As a result, there has been a return to more ancient methods of Bible study, which had been largely neglected during the centuries of the Church's drift from apostolic testimony. Augustine's words have had a re-affirmation: "Distinguish the ages, and the Scriptures are plain." And so there has been great emphasis put in many quarters, and rightly so, upon the study of what is commonly known as "dispensational" truth. Frederick Albert Hughes (1890-1988) was well known among the brethren as a man of God who cared deeply for the honour of the Lord Jesus and the preciousness of the saints. His writings reflect his heart for God and His people. In this book he expounds the importance, relevance, meaning and infinite privilege and joy of observing the Lord's Supper. On the very eve of His betrayal, arrest and crucifixion the Lord Jesus gathered His disciples round Him, and after the Passover Supper He inaugurated this simple memorial of Himself. In the Bread and the Cup He signified that He was about to give Himself — His body and His blood — for us. Then He added,

“This do in remembrance of Me”; so challenging the hearts of all the redeemed to obey and respond to such supreme devotion and love. It is sad to record that the import and appeal of our Lord’s institution appear largely to have been lost in ritual and formality within Christendom. Many take it as a means of grace for sinners, whereas the Lord’s Supper is a simple memorial to believers of the One who died for them. In a day when spiritual truths are being despised or neglected as never before it is necessary to remind all true-hearted Christians of the supreme virtue and recompense in remembering our Lord in obedience to His request. As the Lord Jesus manifests Himself in the breaking of bread we may experience the joy of heart-felt response to the One who gave all for us, and of true worship to the Father whom He came to declare. *The Brethren* is the first detailed behind-the-scenes account of the Supreme Court in action. Bob Woodward and Scott Armstrong have pierced its secrecy to give us an unprecedented view of the Chief and Associate Justices—maneuvering, arguing, politicking, compromising, and making decisions that affect every major area of American life. "A must-read for anyone interested in the Supreme Court."—MIKE LEE, Republican senator from Utah

Politics have always intruded on Supreme Court appointments. But although the Framers would recognize the way justices are nominated and confirmed today, something is different. Why have appointments to the high court become one of the most explosive features of our system of government? As Ilya Shapiro makes clear in *Supreme Disorder*, this problem is part of a larger phenomenon. As government has grown, its laws reaching even further into our lives, the courts that interpret those laws have become enormously powerful. If we fight over each new appointment as though everything were at stake, it’s because it is. When decades of constitutional corruption have left us subject to an all-powerful tribunal, passions are sure to flare on the infrequent occasions when the political system has an opportunity to shape it. And so we find the process of judicial appointments verging on dysfunction. Shapiro weighs the many proposals for reform, from the modest (term limits) to the radical (court-packing), but shows that there can be no quick fix for a judicial system suffering a crisis of legitimacy. And in the end, the only measure of the Court’s legitimacy that matters is the extent to which it maintains, or rebalances, our constitutional order. It is impossible to examine any part of the war on terrorism in the twenty-first century without seeing the hand of Dick Cheney, Colin Powell or one of their loyalists. *The Commanders*, an account of the use of the military in the first Bush administration, is in many respects their story -- the intimate account of the tensions, disagreements and debates on the road to war. Hutchinson provides the first definitive biography of Justice Byron "Whizzer" White--this century's most famous scholar-athlete--who served on the Supreme Court for 31 years and was the author of the famous dissenting opinion in "Roe vs. Wade".

American Gridlock brings together the country's preeminent experts on the causes, characteristics, and consequences of partisan polarization in US politics and government, with each chapter presenting original scholarship and novel data. This book is the first to combine research on all facets of polarization, among the public (both voters and activists), in our federal institutions (Congress, the presidency, and the Supreme Court), at the state level, and in the media. Each chapter includes a bullet-point summary of its main argument and conclusions, and is written in clear prose that highlights the substantive implications of polarization for representation and policy-making. Authors examine polarization with an array of current and historical data, including public opinion surveys, electoral and legislative and congressional data, experimental data, and content analyses of media outlets. *American Gridlock's* theoretical and empirical depth distinguishes it from any other volume on polarization. “With *Supreme Inequality*, Adam Cohen has built, brick by brick, an airtight case against the Supreme Court of the last half-century...Cohen’s book is a closing statement in the case against an institution tasked with protecting the vulnerable, which has emboldened the rich and powerful instead.” —Dahlia Lithwick, senior editor, *Slate*

A revelatory examination of the conservative direction of the Supreme Court over the last fifty years. In *Supreme Inequality*, bestselling author Adam Cohen surveys the most significant Supreme Court rulings since the Nixon era and exposes how, contrary to what Americans like to believe, the Supreme Court does little to protect the rights of the poor and disadvantaged; in fact, it has not been on their side for fifty years. Cohen proves beyond doubt that the modern Court has been one

of the leading forces behind the nation's soaring level of economic inequality, and that an institution revered as a source of fairness has been systematically making America less fair. A triumph of American legal, political, and social history, *Supreme Inequality* holds to account the highest court in the land and shows how much damage it has done to America's ideals of equality, democracy, and justice for all. Shows President Obama making the critical decisions on the Afghanistan War, the secret war in Pakistan, and the worldwide fight against terrorism. Veils the story of the covert wars that were waged in Central America, Iran and Libya in a secretive atmosphere and became the centerpieces and eventual time bombs of American foreign policy in the 1980s. This is the first history of the Plymouth Brethren, a conservative, nonconformist evangelical Christian movement whose history can be traced to Dublin, Ireland in the late 1820s. The teachings of John Nelson Darby, an influential figure among the early Plymouth Brethren, have had a huge impact on modern evangelicalism. However, the credit for Darby's work went to some of the first generation of his students, and as evangelicalism has grown it has completely ignored its origins in Darby and the Brethren. In this book, Massimo Introvigne restores credit to John Nelson Darby and his movement, and places them in a contemporary sociological framework based on Introvigne's participant observation in Brethren communities. The modern-day Plymouth Brethren emphasize sola scriptura, the belief that the Bible is the supreme authority for church doctrine and practice. Brethren see themselves as a network of like-minded independent assemblies rather than as a church or a denomination. The movement has also refused to take any formal denominational name; the title "the Brethren" comes from the Biblical passage "one is your Master, even Christ; and all ye are brethren" (Matthew 23:8). The Plymouth Brethren offers a typology of differing branches of this reclusive movement, including a case study of the "exclusive" branch known as the Plymouth Brethren Christian Church, and reveals the various ways in which Brethren ideas have permeated the modern Christian world. A tiny, ebullient Jew who started as America's leading liberal and ended as its most famous judicial conservative. A Klansman who became an absolutist advocate of free speech and civil rights. A backcountry lawyer who started off trying cases about cows and went on to conduct the most important international trial ever. A self-invented, tall-tale Westerner who narrowly missed the presidency but expanded individual freedom beyond what anyone before had dreamed. Four more different men could hardly be imagined. Yet they had certain things in common. Each was a self-made man who came from humble beginnings on the edge of poverty. Each had driving ambition and a will to succeed. Each was, in his own way, a genius. They began as close allies and friends of FDR, but the quest to shape a new Constitution led them to competition and sometimes outright warfare. *Scorpions* tells the story of these four great justices: their relationship with Roosevelt, with each other, and with the turbulent world of the Great Depression, World War II, and the Cold War. It also serves as a history of the modern Constitution itself. The Washington Post journalist and legal expert Ruth Marcus goes behind the scenes to document the inside story of the Brett Kavanaugh confirmation battle and the Republican plot to take over the Supreme Court—thirty years in the making—in this “impressively reported, highly insightful, and rollicking good read” (The New York Times Book Review). In the summer of 2018 the Kavanaugh drama unfolded so fast it seemed to come out of nowhere. With the power of the #MeToo movement behind her, a terrified but composed Christine Blasey Ford walked into a Senate hearing room to accuse Kavanaugh of sexual assault. This unleashed unprecedented fury from a Supreme Court nominee who accused Democrats of a “calculated and orchestrated political hit.” But behind this showdown was a much bigger one. The Washington Post journalist and legal expert Ruth Marcus documents the thirty-year mission by conservatives to win a majority on the Supreme Court and the lifelong ambition of Brett Kavanaugh to secure his place in that victory. The reporting in *Supreme Ambition* is full of revealing and weighty headlines, as Marcus answers the most pressing questions surrounding this historical moment: How did Kavanaugh get the nomination? Was Blasey Ford's testimony credible? What does his confirmation mean for the future of the court? Were the Democrats outgunned from the start? On the way, she uncovers secret White House meetings, intense lobbying efforts, private confrontations on Capitol Hill, and lives forever upended on both

coasts. This “extraordinarily detailed” (The Washington Post) page-turner traces how Brett Kavanaugh deftly maneuvered to become the nominee and how he quashed resistance from Republicans and from a president reluctant to reward a George W. Bush loyalist. It shows a Republican party that had concluded Kavanaugh was too big to fail, with senators and the FBI ignoring potentially devastating evidence against him. And it paints a picture of Democratic leaders unwilling to engage in the no-holds-barred partisan warfare that might have defeated the nominee. In the tradition of *The Brethren* and *The Power Broker*, *Supreme Ambition* is the definitive account of a pivotal moment in modern history, one that will shape the judicial system of America for generations to come. Based on 18 months of reporting, Woodward's 17th book is an intimate, documented examination of how President Obama and the highest profile Republican and Democratic leaders in the United States Congress attempted to restore the American economy and improve the federal government's fiscal condition over three and one half years. Drawn from memos, contemporaneous meeting notes, emails and in-depth interviews with the central players, *THE PRICE OF POLITICS* addresses the key issue of the presidential and congressional campaigns: the condition of the American economy and how and why we got there. Providing verbatim, day-by-day, even hour-by-hour accounts, the book shows what really happened, what drove the debates, negotiations and struggles that define, and will continue to define, the American future. A thrilling, behind-the-scenes account of the revolutionary *Roe v. Wade* Supreme Court ruling. *The Justices Behind Roe V. Wade* offers a front-row seat to the inner workings of the Supreme Court that led to the monumental *Roe v. Wade* decision. Spanning from 1969 to 1972, Pulitzer Prize-winning author Bob Woodward and coauthor Scott Armstrong report on the masterful maneuvering and politicking that affected the court's decisions and created obstacles for the landmark ruling. Abridged from the #1 bestseller *The Brethren*, this is an exquisite work of reporting on one of the most important rulings of the United States. The former legal affairs editor of *Newsweek* takes us inside the secret world of the Supreme Court and shows how the justices subvert the role of the other branches of government—and how we've come to accept it at our peril. Never before has the Court been more central in American life. It is now the nine justices who too often decide the biggest issues of our time—from abortion and same-sex marriage to gun control, campaign finance, and voting rights. The Court is so crucial that many voters in 2016 made their choice based on whom they thought their presidential candidate would name to the Court. Donald Trump picked Neil Gorsuch—the key decision of his new administration. The newest justice, Brett Kavanaugh—replacing Anthony Kennedy—is even more important, holding the swing vote over so much social policy. With the 2020 campaign underway, and with two justices in their '80s, the Court looms even larger. Is that really how democracy is supposed to work? Based on exclusive interviews with the justices, Kaplan provides fresh details about life behind the scenes at the Court: the reaction to Kavanaugh's controversial arrival, the new role for Chief Justice John Roberts, Clarence Thomas's simmering rage, Antonin Scalia's death, Ruth Bader Ginsburg's celebrity, Breyer Bingo, and the petty feuding between Gorsuch and the chief justice. Kaplan offers a sweeping narrative of the justices' aggrandizement of power over the decades—from *Roe v. Wade* to *Bush v. Gore* to *Citizens United*. (He also faults the Court for not getting involved when it should—for example, to limit partisan gerrymandering.) But the arrogance of the Court isn't partisan: Conservative and liberal justices alike are guilty of overreach. Challenging conventional wisdom about the Court's transcendent power, as well as presenting an intimate inside look at the Court, *The Most Dangerous Branch* is sure to rile both sides of the political aisle. *The Brethren: Inside the Supreme Court* (New York, Simon & Schuster, 1979) is a chronological narrative dealing with the docket of the US Supreme Court from October 1969 through July 1976. With respect to genre- poetry, prose, fiction, nonfiction, etc.- I can with some degree of confidence report that the book is prose and not bad prose at that. Concerning whether the book is fiction or nonfiction, however, I speak with far less confidence. The Choice is Bob Woodward's classic story of the quest for power, focusing on the 1996 presidential campaign as a case study of money, public opinion polling, attack advertising, handlers, consultants, and decision making in the midst of electoral uncertainty. President Bill Clinton is examined in full in the contest with Senate Majority Leader Bob Dole, the Republican

presidential nominee. The intimacy and detail of Woodward's account of the candidates and their wives show the epic human struggle in this race for the White House. In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "The Brethren: Inside the Supreme Court." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

President of the United States Donald Vanderdamp is having a hell of a time getting his nominees appointed to the Supreme Court. After one nominee is rejected for insufficiently appreciating *To Kill A Mockingbird*, the president chooses someone so beloved by voters that the Senate won't have the guts to reject her -- Judge Pepper Cartwright, the star of the nation's most popular reality show, *Courtroom Six*. Will Pepper, a straight-talking Texan, survive a confirmation battle in the Senate? Will becoming one of the most powerful women in the world ruin her love life? And even if she can make it to the Supreme Court, how will she get along with her eight highly skeptical colleagues, including a floundering Chief Justice who, after legalizing gay marriage, learns that his wife has left him for another woman. Soon, Pepper finds herself in the middle of a constitutional crisis, a presidential reelection campaign that the president is determined to lose, and oral arguments of a romantic nature. *Supreme Courtship* is another classic Christopher Buckley comedy about the Washington institutions most deserving of ridicule. Reveals how Supreme Court justices' personalities, particularly conscientiousness, influence the Law, the High Court, and the Constitution. The eighteenth century was a time of significant change in the perception of marriage and family relations, the emphasis of reason over revelation, and the spread of political consciousness. The Unity of the Brethren, known in America as Moravians, experienced the resulting tensions firsthand as they organized their protective religious settlements in Germany. A group of the Brethren who later settled in Salem, North Carolina, experienced the stresses of cultural and generational conflict when its younger members came to think of themselves as Americans. The Moravians who first immigrated to America actively maintained their connections to those who remained in Europe and gave them the authority for deciding religious, social, and governmental issues. But, as the children born in Salem became acclimated to more freedoms, particularly in the wake of the American Revolution, a series of disputes intensified the problems of transatlantic governance. While the group's leadership usually associated Enlightenment principles with rebellion and religious skepticism, the younger Brethren were drawn to its message of individual autonomy and creative expression. Elisabeth Sommer traces the impact of this generational and cultural change among Moravians on both sides of the Atlantic and examines the resulting debate over the definition of freedom and faith. An international bestseller certain to appeal to fans of *The Last Templar*—the thrilling first book in a sweeping medieval trilogy *On the eve of the last Crusade*, two men's destinies will come together as two great civilizations go to war. Amidst conspiracy and intrigue in Europe, Will Campbell, a young knight, risks his life to recover the stolen Book of the Grail. Hidden within its pages are the heretical plans of a secret society within the Knights Templar. Meanwhile, the former slave Baybars Bundukdari and his army have taken over Egypt and Syria, and are planning a new Holy War to bring the Crusaders to their knees. With breathtaking battle scenes, memorable characters, and a riveting mystery at its center, *Brethren* (being published simultaneously with book two, *Crusade*, in hardcover) is a heart-stopping historical drama that brings the Middle Ages vividly to life. The story of the birth of the Religious Right is a familiar one. In the 1970s, mainly in response to *Roe v. Wade*, evangelicals and conservative Catholics put aside their longstanding historical prejudices and theological differences and joined forces to form a potent political movement that swept across the country. In this provocative book, Neil J. Young argues that almost none of this is true. Young offers an alternative history of the Religious Right that upends these widely-believed myths. Theology, not politics, defined the Religious Right. The rise of secularism, pluralism, and cultural relativism, Young argues, transformed the relations of America's religious denominations. The interfaith collaborations among

liberal Protestants, Catholics, and Jews were met by a conservative Christian counter-force, which came together in a loosely bound, politically-minded coalition known as the Religious Right. This right-wing religious movement was made up of Mormons, conservative Catholics, and evangelicals, all of whom were united--paradoxically--by their contempt for the ecumenical approach they saw the liberal denominations taking. Led by the likes of Jerry Falwell, they deemed themselves the pro-family movement, and entered full-throated into political debates about abortion, school prayer, the Equal Rights Amendment, gay rights, and tax exemptions for religious schools. They would go on to form a critical new base for the Republican Party. Examining the religious history of interfaith dialogue among conservative evangelicals, Catholics, and Mormons, Young argues that the formation of the Religious Right was not some brilliant political strategy hatched on the eve of a history-altering election but rather the latest iteration of a religious debate that had gone on for decades. This path breaking book will reshape our understanding of the most important religious and political movement of the last 30 years. Chronicles star baseball player Curt Flood's attempt to overthrow the "reserve" clause system of professional baseball, which bound players to teams as a form of property. Although he lost his legal battle, the Court left the door open for the players to eventually negotiate a version of "free agency." The eighth Discworld novel — After this, dragons will never be the same again! This is where the dragons went. They lie . . . not dead, not asleep, but . . . dormant. And although the space they occupy isn't like normal space, nevertheless they are packed in tightly. They could put you in mind of a can of sardines, if you thought sardines were huge and scaly. And presumably, somewhere, there's a key . . . An incisive biography of the Supreme Court's enigmatic Chief Justice, taking us inside the momentous legal decisions of his tenure so far. John Roberts was named to the Supreme Court in 2005 claiming he would act as a neutral umpire in deciding cases. His critics argue he has been anything but, pointing to his conservative victories on voting rights and campaign finance. Yet he broke from orthodoxy in his decision to preserve Obamacare. How are we to understand the motives of the most powerful judge in the land? In *The Chief*, award-winning journalist Joan Biskupic contends that Roberts is torn between two, often divergent, priorities: to carry out a conservative agenda, and to protect the Court's image and his place in history. Biskupic shows how Roberts's dual commitments have fostered distrust among his colleagues, with major consequences for the law. Trenchant and authoritative, *The Chief* reveals the making of a justice and the drama on this nation's highest court. New York Times Book Review Editor's Choice Drawing on never-before-published original source detail, the epic story of two of the most consequential, and largely forgotten, moments in Supreme Court history. For two hundred years, the constitutionality of capital punishment had been axiomatic. But in 1962, Justice Arthur Goldberg and his clerk Alan Dershowitz dared to suggest otherwise, launching an underfunded band of civil rights attorneys on a quixotic crusade. In 1972, in a most unlikely victory, the Supreme Court struck down Georgia's death penalty law in *Furman v. Georgia*. Though the decision had sharply divided the justices, nearly everyone, including the justices themselves, believed *Furman* would mean the end of executions in America. Instead, states responded with a swift and decisive showing of support for capital punishment. As anxiety about crime rose and public approval of the Supreme Court declined, the stage was set in 1976 for *Gregg v. Georgia*, in which the Court dramatically reversed direction. *A Wild Justice* is an extraordinary behind-the-scenes look at the Court, the justices, and the political complexities of one of the most racially charged and morally vexing issues of our time. Acclaimed journalist Jeffrey Toobin takes us into the chambers of the most important—and secret—legal body in our country, the Supreme Court, revealing the complex dynamic among the nine people who decide the law of the land. An institution at a moment of transition, the Court now stands at a crucial point, with major changes in store on such issues as abortion, civil rights, and church-state relations. Based on exclusive interviews with the justices and with a keen sense of the Court's history and the trajectory of its future, Jeffrey Toobin creates in *The Nine* a riveting story of one of the most important forces in American life today. #1 NEW YORK TIMES BESTSELLER • They call themselves the Brethren: three disgraced former judges doing time in a Florida federal prison. One was sent up for tax evasion. Another, for skimming bingo profits. The

third for a career-ending drunken joyride. Meeting daily in the prison law library, taking exercise walks in their boxer shorts, these judges-turned-felons can reminisce about old court cases, dispense a little jailhouse justice, and contemplate where their lives went wrong. Or they can use their time in prison to get very rich—very fast. And so they sit, sprawled in the prison library, furiously writing letters, fine-tuning a wickedly brilliant extortion scam—while events outside their prison walls begin to erupt. A bizarre presidential election is holding the nation in its grips, and a powerful government figure is pulling some very hidden strings. For the Brethren, the timing couldn't be better. Because they've just found the perfect victim.
