Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, of lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it. An easy way to help young girls see God's promises and how they can rely on His love in their daily lives. The promise verses in this book are selected from the best-selling International Children's Bible® to offer comfort and encouragement when a girl is feeling afraid, lonely, worried, angry, dissatisfied, discouraged, sad, rebellious, impatient, or sick . . . and when they need reassurance of God's protection, love, forgiveness, help . . . and that He listens when they pray. It's a great way for children to hide God's Word in their hearts. Sample text: Monsters. Spiders. Being alone. Do any of these things make you feel afraid? Luis de Santángel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life. The workbook will encourage students to read closely, write with enthusiasm and get involved in the subject of English in a challenging and meaningful way. The institutional, economic, and social breakdown of Venezuela is not the result of the dismantling of Hugo Chávez's legacy, but rather a result of his policies. It is like a boomerang which, as it returns to the person that throws it, shatters the glass in which the father of the Bolivarian revolution saw himself: from benefactor to the poor to culprit for the great shortages, inflation, and violence which buffets the country, especially its lower class-scarcity of basic goods, long lines at stores, widespread crime... Chavismo was very much of a fraud from the outset: transfer of sovereignty to Cuba, electoral deceit, unprecedented economic corruption, narco-state... Some girls have all the luck. A war without armies, where battles are fought in the dark and information is the most dangerous weapon. In this world—which sometimes seems the Middle Ages, sometimes the Renaissance and sometimes the Nineteenth Century—lives Yáxtor Brandan, empirical adept at the service of the Queen of Alboné. A relentless, amoral and unscrupulous character, Yáxtor fights to recover his own past as he tries to prevent a new player in the espionage game to end the world, as he knows it. A fascinating fast-moving and complex plot, full of tension and surprises and excellently paced; a main character for whom it should be impossible to feel the slightest sympathy, and yet somehow we do, even as his cruelty disturbs us more and more - an extremely difficult feat to pull off so successfully; powerful secondary actors, who either leave you with a sense of uneasiness with regard to their motivations and loyalties, or make you want to shout out - as people did in the early days of cinema - "Look out, don't trust him!"; and a pervading atmosphere of tragedy, especially in a final unexpected and shocking, yet on reflection almost inevitable, scene. In short, a totally addictive and highly original novel set in a world that is at once both strangely familiar and disturbingly alien. —Steve Redwood, author of *Fisher of Devils*.
